Terra Firma Inc.
801 East 82nd
Suite A9
Anchorage, Alaska 99518

To Whom It May Concern:

During the past four years, I have had the opportunity to work with Terra Firma on many of my projects, to mention a few, Kincaid Estates North, Brookside Knoll Subdivision and Spruce Meadows Subdivision. The professionalism that both Ron Caron and Tamara Selmer have displayed has been above reproach. They have a very experienced staff who are not only knowledgeable with soils, soils testing and equipment, they are dependable and friendly and a pleasure to have on the project site.

Each time the situation has arisen to warrant calling Terra Firma out to take tests and/or samples without advanced notice, they have arrived in a timely manner, even when it meant Ron had to come out to perform the duties because the other technicians were busy elsewhere.

The office is very efficient in faxing copies of all test results so that my office does not have to request the information; it is there, without fail. The team that makes up Terra Firma is an asset to the construction industry in this state.

I look forward to working with Terra Firma, Ron Caron and Tamara Selmer, in particular.

Sincerely,

Marty Westbrook
