

JUSTIN ANDRYJOWICZ – Special Inspector / Engineering Technician

EDUCATION

Civil Engineering University of Alaska Anchorage

GENERAL EXPERIENCE

Justin has worked 5 years as an engineering technician, performing both on site and laboratory Quality Assurance Testing. He is adept at communicating effectively and concisely with clientele and ensuring their needs are met in any work environment. He has experience and training in testing and sampling concrete, soils, and asphalt, in both field and laboratory conditions. He possesses excellent communication skills, allowing him to be effective in instructing new hires in the proper testing and sampling procedures, thus ensuring that all technicians adhere to established industry standards.
