## RON J.P. CARON, C.E.T.   Vice President/CoMET Director

---

### EDUCATION

Associate Degree, Pure and Applied Science, Champlain College, Montreal, Quebec - 1975  
Associate Degree, Civil Engineering Technology, Dawson College, Montreal, Quebec - 1978

---

### GENERAL EXPERIENCE

Since 1980, Mr. Caron has participated in countless civil engineering projects, ranging from geotechnical investigations to QA/QC construction monitoring. Mr. Caron has been responsible for training and supervising engineering technicians, conducting construction material testing (soil/ concrete/ asphalt) and IBC special inspection. In this capacity, he has planned and set-up remote field laboratories for construction monitoring programs and has been responsible for a full-service materials testing laboratory for soil, concrete and asphalt products for a multi-disciplinary international and local civil engineering firms. Additional testing capabilities include performance of sophisticated soil strength testing such as: triaxial testing, hydraulic conductivity, and an array of advanced permafrost related tests.

---

### MOA SPECIAL INSPECTOR #044 PROFICIENCIES

1704.4 Concrete Construction/ Drilled in Concrete Anchors  
1704.7 Soils  
1704.8 Driven Deep Foundations  
1704.9 Cast In Place Deep Foundation  
1704.12 Spray Applied Fireproofing

### PROFESSIONAL QUALIFICATIONS

Certificate	2008	COE HMA Airfield Paving Training Qualification
Member	2006	Geotechnical Business Association
Member	2005	International Code Council
Certificate	2001	ACI Concrete Field Testing Technician Grade 1 (#01074914)
Certificate	2000	FHWA Hot Mix Asphalt Construction for Consultants and Contractors
Certificate	2000	WAQTC #060 Technician Qualification Program, Instructor Level
Certificate	1996	COE Construction Quality Management for Contractors
Registration	1982	Alberta Society of Civil Engineering Technologists
