

COLTON HUTCHINS – AWS/ CWI/ Structural Steel Special Inspector

EDUCATION

High School Diploma

2008 Chugiak High School

GENERAL EXPERIENCE

Colton has been working in the commercial construction industry since 2006. In 2009 Colton earned Journeyman status with the Alaska Painters Union as an Industrial Coatings Applicator, with the primary applications being related to steel and concrete, many of which are located inside military facilities. In 2010 he began a new apprenticeship as a Radiographer and worked directly with quality control departments for oil companies, primarily on pipelines, many of which were located inside oil refineries. This experience includes construction and quality control throughout remote regions of Alaska and several lower forty eight states. Colton is a Certified Welding Inspector (CWI) and has been a member of the American Welding Society (AWS) since 2015. He is also a Level II inspector qualified in ultrasonic thickness, magnetic particle and liquid penetration inspections. His interaction with Contractors, MOA Building Officials and Owners facilitates the resolution of onsite issues and helps keep projects on schedule.
