**JEFF DENONCOUR – AWS/ CWI/ Senior Structural Steel Special Inspector**

---

**EDUCATION**

Firefighting & Heavy Construction Schools                      1979 U.S. Navy  
Damage Control & Advanced Welding Schools                      1979 U.S. Coast Guard

---

**GENERAL EXPERIENCE**

Jeff has 31 years of experience in commercial construction including fabricating and erection of structural steel, marine vessel welding and building off-shore structures. This experience includes construction throughout remote regions of Alaska including villages, north slope oil fields and off-shore drilling platforms. He is a Certified Welding Inspector (CWI) and welding educator, being a member of the American Welding Society (AWS) since 2012. Jeff also has experience as a radiographer and quality control manager. His interaction with Contractors, MOA Building Officials and Owners facilitates the resolution of onsite issues and helps keep projects on schedule.
